

# Laticea Sheared

---

I've been happily involved with the Omaha Early Learning Center for about one year.

My favorite thing about the OELC is that the mission aligns with our family values. I feel the OELC is innovative about learning and is interactive with families to keep parents involved in daily routines.

I decided to be on Policy Council because I take pride in being involved in my child's education. I felt policy council would be an opportunity for me to learn about the organization and would help me stay informed of new things that could impact the OELC. I consider myself an advocate for not only my child, but for all children. I am delighted to listen, learn and participate with Policy Council.
